All Green Bay Metro buses are wheelchair accessible.

Please signal only once and remain seated until the bus has stopped. Riders with disabilities can request the driver to let them know when their destinations are approaching.

It is recommended that you use the front door to exit the bus. Once you are off, move away from the bus. For your safety, please do not walk along the side of the bus after exiting and wait for the bus to pull away before crossing the street.

Bikes on Buses

Green Bay Metro has bike racks on its buses. The racks hold two bicycles and are easy to use. There is no extra charge for taking your bike on the bus. One way to learn to use the racks is to practice while a bus is waiting at a transfer point or time point. Ask the driver for permission.

Loading your bike

1) Prepare your bike for loading. Remove water bottles, pumps, and other loose items that could fall off while the bus is in motion.

2) Inform the bus driver that you will be loading your bike. You must load your bike from the curb or in front of the bus. Do not step into oncoming traffic to load your bike.

3) Squeeze handle up to release latch, then fold down bike rack. You only need to use one hand to unlatch and pull the rack down, so you can hold your bike with the other hand. It is not necessary to lean your bike against the bus.

4) Lift your bike onto the rack, fitting wheels into the slots. Each slot is labeled for front and rear wheels. Please load your bike in the inside slot first.

5) Raise and release the support arm over the top of the front tire. Make sure the support arm is resting on the tire and not on the fender or frame. Board the bus and sit as close to the front of the bus as possible, keeping your bike in view. **DON'T FORGET** your bike when you get off the bus!

Unloading your bike

Tell the bus driver you need to unload your bike before you approach your stop. Unload your bike from in front of the bus or from the curb, not from the street. Raise the support arm off the tire. Move the support arm down, out of your way. Lift your bike out of the rack. Fold up the bike rack if there is no other bike in the rack.
